“ *I am saddened to receive shocking news of Jeroen's passing through death into eternal life. He was a knowledgeable deeply caring man who loved his family and tended to his patients and students with personable dedication, creating a welcoming, educational, warm and healing environment. Working with Jeroen is an unforgettable experience. Midst our sorrow, I will honor his memory with prayers for his family and by practicing and sharing what he and other patients taught me to optimize my mobility and broaden my world. God bless you, Jeroen. Debbie*

“ I am very saddened by the news I received today of Jeroens passing . I am in shock and total disbelief. My heartfelt condolences go out to his wife and family, which he openly expressed ultimate love for.

God now has a wonderful man in his possession and will bless him for all eternity.

Jeroen helped me heal through a very difficult and painful knee replacement. He was kind understanding, empathetic and truly cared for the people he helped. When I think of him it will always be with fondness and I will always remember him for his humor and jokes. My husband always brought him a DD's coffee on the mornings of my appointments. My heart is truly heavy as this is a tremendous loss. Rest peacefully dear friend... until we all meet again one day, you and your family will be in my prayers❤️🙏❤️

“ Sincere condolences to the family he loved so much. I was treated by Jeroen for a number of years and must say that as a Physical Therapist and as someone I considered a friend, he will be sorely missed. His dedication to his work, and his commitment to his patients was second to none. This is a tremendous loss to the community.

I was saddened by finding that Jeroen had passed. I stopped at his clinic a few days and learned the sad news. He will be sadly missed by all of his patients. Not only was he a true professional but also a friend.

“ *Very sad news. During my therapy we had the best conversations about our families and food. I was able to share my famous "pernil" "pork shoulder" Colombian style. I will remeber him for his work committment and passion, his communication skills and understanding.*

“ *Jeroen treated my 13 year old daughter last spring for a leg injury. When 3 Orthopedics couldn't agree on treatment, he held fast and worked diligently with her until she was back to 100%. I was in the neighborhood of his office today and decided to drop by - say hello - and let him know how great she is still doing and that she made the JV soccer team this fall. I was so sad to hear the news of his passing. He was patient, kind and determined with my daughter and even administered some tough love as needed. I am so sorry for his family's and our community's loss.*

“ We were deeply shocked, the moment we were aware of this cruel message, brought via Facebook.

Our tall american nephew is no more! This is an unbelievable fact. We think the same thought will overwhelm dear Michelle and her kids.

The scarce times Jeroen visited us in Holland, accompanied either by Bas Or Dylon, we had a great time together. more pleasure we had, when the complete family visited us and we roamed the theme/park `de Efteling`.

There is an expression: life changes all the time. But in this case a too big and unbearable strike for Michelle and her kids.

Fortunately are there many friends around, who will definetly comfort and help the family,

so much affected by this sad occurence during the coming time.

In Holland we have Jeroen and his family in our thoughts. Hopefully it comforts the family that on either side of the ocean also grieve and sorrow exists for this great loss.

“ I was deeply shocked and saddened to hear of the unexpected loss of my colleague, Jeroen Keessen. As a chiropractor, I frequently recommended him to my patient requiring PT (including my mother). They always returned with rave reviews about how much fun they had while getting through their healing process with him and how knowledgeable he was about their condition. He was "bigger than life"! He will be missed by so many. My deepest condolences to his family, especially his wife and children.

Dr. Nike Anne Taylor - September 13, 2018 at 11:50 AM

LC

“ My appointment was today at 4:30 and I was told by the pizza place next door what had happened. I am so upset to hear this I cried all the way home and actually still crying as I write this. He was my physical therapist and friend who helped me with my foot after my surgery of 2016 and was now working to help my right hand get better. Jeroen knew exactly what to do to help. Each patient that came in he had a great relationship with them he would make us all laugh. All the patients that I met too were great too I have to say. "WE ALL LOVED JEROEN"

I am truly going to miss him. I hope and pray his wife and children can get through this difficult time. I wish I can take their pain away from them cause Jeroen would not want to see his family suffer as proud as he was and as much as he loved his wife and children. God Bless The Keessen family my prayers are with you.

“ I was with Jeroen on that Friday, at 10:00 am when we spent an hour in his office talking, laughing and joking while he worked on me. I received a phone call at 7:30 am, on Monday to inform me that my appointment had to be cancelled due to his passing away - a news that has left me speechless since. Jeroen was my physical therapist, but he was also a person with whom I would often discuss my children, i.e., their development, schooling, as well as their challenges, and he would do the same about his family. Jeroen's demeanor toward all was always supportive, optimistic, engaging, caring, and upbeat. He always came across as well read, astute, intuitive and upright in his thinking. He was right on in his analysis and understanding of geopolitics and national politics, as well as the day to day socio-economic events. Jeroen's death is a blow to his wife and two children, but also a huge loss to the community of at large., especially those of us who lead an active lifestyle. I wish I could find a word on consolation for his family. I feel as though I have a close friend.
