That was beautiful! I really enjoyed seeing the beautiful pictures of Josh through the years. He was such a special young man. I spent a year as his monitor going to and from school in 2017-2018 and I so wanted to be with him again this past year but someone else took the run from me. He stole a huge part of my heart in that one year and I always hoped that I would have another year with him He was such a kind and thoughtful person and we had many fun times on the bus . I called him Ice Tea because he always came in with a big jug. He was very thoughtful to the more timid students and I Loved his laugh. He opened up so much from the beginning of the year and started sitting up front with me so we could talk. I remember his eyes were always covered with his beautiful hair but then he started showing his face as he became more comfortable... He was a very special student and I will never ever forget him... My heart breaks for his mom and his sister and family and for Eve who became very close to him that year. It was so sweet to see them together. Young love. I know that God has a beautiful angel and that he is watching over his loved ones... 🙏😭💕

“ I am sorry I did not know your son but my daughter knew him well. As a new student in his school he always said hello and treated her with kindness and helped her transition into a new environment. Every day he'd ask for a hug and made her feel welcome. He will be missed but the way he treated my daughter will always live on. Again my condolences for your loss for he was a truly great man in my eyes and my daughters

“ I remember Josh from his attendance at local poetry readings and salons, in the Orange and Sullivan area. He was bright, engaged, and interested in the Arts. Having been friends for many years, with his grandmother, Bonnie, who helped to instill a love of the Arts in Josh's life, we were all quite fortunate to have known this bright, insightful, and talented young man.
