Richard I will miss you and our talks. I know that you are in a good place. I admired the love you have for our Lord. Even though you were two and a half years older than me, you were still my baby brother. We shared many memories growing up on Story Avenue. Rest in Peace, I love you. always in my heart.

“ Hey pop I was always very fond of you. I have many great memories of you. I always enjoyed stealing your peanuts and watching football with you. Our conversations were always interesting and entertaining. You had a beautiful smile that I always loved to see and it is painted vibrantly in my memories. No matter what I did or what path I decided to take in my life you always treated me the same and supported me. You always asked how I was doing and when I told you I was going to be a PE you thought that was so cool. I always admired you for trying new things. One of many memories I have is when you were so interested in vitamins. You would take out all your tubs of pills and tell me what each one did and we would talk about them for hours. I even started taking some. You were always approachable and just a sweet individual. I love you pop and I always will.
love always Lisa O
